FERC Is Asked to Stop ACP Construction

A motion was filed June 11 with the Federal Energy Regulatory Commission (FERC) requesting that the agency immediately revoke its May 11 authorization for construction to proceed in West Virginia for the Atlantic Coast Pipeline. The action, filed by the Southern Environmental Law Center on behalf of Defenders of Wildlife, Sierra Club and Virginia Wilderness Committee, was prompted by a report last week to ABRA's Compliance Surveillance Initiative (CSI) of construction activity occurring south of Buckhannon, West Virginia (in Upshur County). The construction work was subsequently verified by photographic evidence produced by the ABRA/CSI Pipeline Air Force, one example of which is below.

In its motion filed with FERC, SELC said:

Petitioners request that the Commission grant rehearing, immediately revoke the West Virginia Notice to Proceed, and stay all pipeline construction authorized by the Notice. On May 15, 2018 the Fourth Circuit Court of Appeals vacated the Fish and Wildlife Service’s Incidental Take Statement for the Atlantic Coast Pipeline. Therefore, Atlantic and Dominion are not in compliance with two mandatory conditions of the project’s Certificate.
Order: Environmental Condition 54 and Environmental Condition 10. Certificate Order, Appendix A, ¶¶ 10, 54. Both of these conditions require a valid incidental take statement before pipeline construction proceeds.

Continuing, the motion argued that:

1. Endangered Species Act consultation is not complete for the project, and the Atlantic Coast Pipeline, LLC (Atlantic) and Dominion Energy are not in compliance with Environmental Conditions 54 and 10 of FERC's October 13, 2017 Certificate Order for the ACP. Condition 54 stipulates that construction cannot begin until after the process of complying with the Endangered Species Act is completed. Condition 10 requires that Atlantic must file with FERC all applicable authorizations required under federal law. SELC contends in its motion that Atlantic no longer has all applicable authorizations because it lacks a valid incidental take statement.

2. Atlantic, Dominion and FERC will violate Section 7(d) of the Endangered Species Act if pipeline construction continues before consultation is complete.

3. Atlantic, Dominion and FERC risk violation of the Endangered Species Act’s prohibition on the “take” of protected species without a valid incidental take statement.

Reminder: Stream Crossing Comments Are Due This Friday

Friday, June 15 is the deadline for submitting comments on the adequacy of the U.S. Army Corps of Engineers NWP 12 program for stream crossings of the Atlantic Coast Pipeline and the Mountain Valley Pipeline. Written comments may be submitted via hand-delivery to DEQ, 1111 East Main Street, Richmond, VA 23219; via postal mail to DEQ, P.O. Box 1105, Richmond, VA 23218; or via e-mail at the following email address(es) ONLY – emails and attachments sent to other email addresses or internet sites will not be considered:

- NWP12InfoOnMVP@deq.virginia.gov
- NWP12InfoOnACP@deq.virginia.gov

All ABRA members are urged to file their own comments and encourage their members and constituencies to do so as well. To assist ABRA in its ongoing analysis of the issue of ACP stream crossings, please send copies of your filed commendsto lewfreeman@gmail.com or to ABRA, P.O. Box 96, Monterey, VA 24465.

CSI Seeks Team Leaders, Plans Training Workshops

ABRA is assembling teams of incident investigators who can assist ABRA staff in checking out incidents of possible pipeline violations that are reported by volunteers into the Pipeline Compliance Surveillance Initiative (CSI). Persons interested in becoming part of such teams in Virginia or West Virginia are asked to contact Lew Freeman at lewfreeman@gmail.com. Please indicate your geographical location proximate to the route of the Atlantic Coast Pipeline.

Special orientation and training sessions to equip CSI volunteers with the knowledge and skills to enhance their monitoring efforts are now being conducted by representatives of the CSI Committee. The first of these will be held Wednesday, June 27, 6 to 8 pm at the Linwood Community Library, Snowshoe, WV, sponsored by the Eight-Rivers Council, an ABRA member organization. Other ABRA member organizations interested in sponsoring a similar training session are urged to contact ABRA Executive Director Lew Freeman at lewfreeman@gmail.com.
Eminent Domain Movie To be Screened June 28 in Charlottesville

*Little Pink House*, the new film about the circumstances leading up to the U.S. Supreme Court decision in the famed *Kelo* case that upheld the right of private corporations to exercise eminent domain powers for private gain, will have a special screening on Thursday, June 28, 7:30 pm at the Regal Cinema at Stonefield, 1954 Swanson Drive Charlottesville, VA.
