

FERC Filing Instructions:

1. Individual text-only comments, maximum 6,000 characters:

To file a **text-only** (no photographs or attachments) comment of **6,000 characters** or fewer **on behalf of an individual (yourself, not an organization)**, visit <https://ferconline.ferc.gov/QuickComment.aspx> and fill out the form. For this option, you do not need to register under FERC's eFile system. FERC will email you a link to the comment system. **The relevant FERC dockets are: CP15-554-000, CP15-554-001, and CP15-555-000.** Draft your comments in a Word or Text file in advance (6,000 characters or less), and then copy and paste them into the eComment Text Box when you access the system.

2. Organizational comments or comments >6,000 characters or including photographs/attachments:

For detailed instructions, with screenshots and explanatory text, for using the full eFiling system, please see the attached document. To file comments including photographs or attachments, of greater than 6,000 characters, or comments on behalf of an organization/association, you must complete the full FERC eRegistration process if you have not already done so: <https://ferconline.ferc.gov/eRegistration.aspx>. Once you have registered, you may file comments via the eFile portal: <https://ferconline.ferc.gov/eFiling.aspx>. Again, **the relevant FERC dockets are: CP15-554-000, CP15-554-001, and CP15-555-000.** You will be able to upload a file or files to submit to the FERC docket.
